## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tenner et al. US #5,642,605.
4. Tenner et al. teach an object (bag 10, Figure 1) having parts which are individually assigned colors representing a specific order, such as the day of the week (column 3 lines 20-37). Tenner et al. also teach assigning the colors to the bags so as to indicate order.
5. Tenner et al. do not teach specifically the colors of the rainbow however, this is considered to be entirely a matter of design choice. Tenner et al. teach choosing appropriate indicia and give an example of colors, among other indicia. It would have been obvious to a person having ordinary skill in the art at the time the invention was made to utilize colors (or any other indicia) that are easily recognizable by the users of the bags.

### ***Conclusion***
